

Day Procedure Guide:

Echocardiogram appointment

- Your pet may eat and drink normally before their appointment.
- Plan to have your pet stay with us the entire day (up to 7-8 pm)- due to the volume of emergency cases we cannot provide a designated time for the echocardiogram.
 - While your pet stays with us they will be provided comfortable bedding and water. We will ensure they receive medications due during their stay and we provide them regular walks.
- A technician will in-take your pet the morning of the ultrasound
 - Please bring medication that your pet will need during their stay, provide the time the medication is due.
 - Please report any new concerns or changes to your pet's status to the technician the morning of the appointment
- If your pet's testing is completed early, we will contact you and discuss a time for you to return.
 - Please make sure we have the right contact information when you arrive for your appointment.
 - Results will be discussed with you either over the phone, in person or via written discharge summary.
