

Heroes Needed!

Enroll your pet today in our blood donor program and you could **SAVE A LIFE!**

Countless dogs and cats have received life-saving transfusions at Tufts VETS. Your pet could contribute to our blood donor program. Please call today to speak with one of our staff members about the program! Pets are asked to donate every 2-3 months. Most donors require a small amount of sedation. Blood is taken from the jugular vein.

Feline Donor Requirements

- 1-8 years old
- Spayed or neutered
- Weigh at least 10 lbs
- Indoor only
- Good disposition
- Healthy
- Taking no medications (other than flea/tick/heartworm prevention)
